

The Northeast Region of the Cohesive Wildland Fire Strategy
and the Fire Adapted Communities Learning Network present

Fire Departments and Wildland Fire

Join us for a webinar presentation on May 7, 2021 at 1 PM Eastern focused on fire departments and wildland fire in the 20-state northeast-midwest region! Hear from peers working on the ground to protect their communities from wildfire, move toward resilient landscapes, and create fire adapted communities. Learn from national program leads about what resources are available and examples of how your fire department can help prepare your community for wildland fire.
